10+ years experiences in manufacturing of Cast Acrylic Sheet.

Versatility in Fabrication: Easy to cut, drill, route, and fabricate into various shapes and sizes

Reliable Quality: Guaranteed across bulk orders

Attractive Price: Optimize your cost efficiency

CAST ACRYLIC SHEET | MANUFACTURER

CAST ACRYLIC SHEET

Cast Acrylic Sheet is a high-performance transparent or translucent plastic sheet with a wide range of applications and significant advantages. Mainly manufactured through a casting process, our products have excellent surface hardness and durability, can withstand various external impacts and wear, making them suitable for both indoor and outdoor environments. It weighs only half as much as glass, with a light transmittance of 94%, making cast acrylic sheets an ideal alternative to glass.
